Business Type	Global Construction Machinery Supplier

Company Introduction

CAMESTON Machinery is a professional supplier specializing in both brand-new and high-quality used construction machinery for global customers. We supply machines from internationally recognized brands including **CAT, XCMG, SANY, Komatsu, Volvo, Hitachi** and more. Our business covers machinery supply, export logistics, customs clearance assistance, machine inspection, spare parts support, and global after-sales coordination. With strong domestic supply channels and long-term strategic cooperation with multiple manufacturers in China, we are able to provide customers with highly competitive pricing and stable machine resources.

Our Competitive Advantages

Why Are Our Prices More Competitive?

Unlike traditional overseas dealers or small local agents, CAMESTON operates with direct domestic procurement advantages and multi-brand strategic supply partnerships. This allows us to provide:

- Lower purchasing costs compared with many European and North American markets
- Stable machine inventory and flexible sourcing solutions
- Faster export processing and shipping arrangements
- Better control over machine quality and inspection standards
- Long-term cost savings for contractors, rental companies, and project buyers

Core Services

Our Main Services Include:

- Brand-new construction machinery supply
- High-quality used machinery sourcing
- Excavators, loaders, rollers, cranes, bulldozers, mining equipment
- Spare parts and attachments support
- Export documentation processing

- Customs clearance assistance
- Remote technical guidance and machine support
- Global shipping coordination

Quality Assurance

Every machine supplied by CAMESTON goes through professional inspection and export preparation procedures. For brand-new machines, customers can enjoy:

- Factory-original condition
- Worldwide warranty support
- Lower maintenance risks
- Stable performance and better fuel efficiency

For used machines, we focus on:

- Transparent machine condition
- Reliable working performance
- Cost-effective investment solutions
- Reduced procurement pressure for developing markets

Global Market Support

CAMESTON serves customers across:

- Europe
- North America
- South America
- Africa
- Southeast Asia
- Middle East Regions

Our team understands different market requirements including machine emission standards, export compliance, shipping procedures, and customs processes in multiple countries.

CAMESTON MACHINERY

We believe machinery trading is not only about selling equipment — it is about helping customers improve profitability, reduce operational risk, and build long-term business success.

Our goal is to provide reliable machines, professional support, and real value for customers worldwide.
